MITT ROMNEY -- FORMER MASS. GOVERNOR & FORMER GOP PRESIDENTIAL CANDIDATE TO SPEAK AT DALLAS EVENT

DALLAS, TX (March 12, 2010) – Governor Mitt Romney offers a uniquely qualified perspective on health care reform and is expected to discuss his views on the Massachusetts election and what it means for November at a **March 18th** event sponsored by the National Center for Policy Analysis.

In his new book, *No Apology: The Case for American Greatness*, Governor Romney asserts that American strength is essential -- not just for our own wellbeing, but for the world's. He proposes simple solutions to rebuild industry, create good jobs, reduce out of control spending on entitlements and healthcare, dramatically improve education, and restore a military battered by eight years of war.

Many of his solutions oppose President Obama's policies, and some also run counter to Republican thinking. But, all have one strategic aim: to move America back to political and economic strength.

Romney is the featured speaker at the next Hatton W. Sumners *Distinguished Lecture Series* luncheon sponsored by the National Center for Policy Analysis (NCPA). Media are invited to the event.
