At this briefing you will learn about **10 fundamental flaws** in the Patient Protection and Affordable Care Act, as well as solutions to each of the flaws:

- ✓ An impossible mandate
- ✓ Perverse incentives for insurers
- ✓ Impossible expectations/a tattered safety net
- ✓ Impossible burden for the states
- ✓ Over-regulated patients
- ✓ An unworkable system of subsidies
- ✓ Perverse incentives for individuals
- ✓ Impossible benefit cuts for seniors
- ✓ Lack of portable insurance
- ✓ Over-regulated doctors

Even if Congress repeals the Affordable Care Act and attempts to replace it with a workable and affordable health care reform law, each of these problems must be addressed and prevented in order for health care reform to succeed.
